November 6, 2023

I hope you and your family had a great summer. I am writing to inform you of my decision to retire from pediatric practice after 46 fulfilling years of service. I plan to work through the end of March 2024 in order to give everyone time to make the transition to a new physician from our practice.

It has been an incredible journey. When I first studied pediatrics, I hoped to experience a challenging and rewarding career. Working at Milton Pediatrics with families from all walks of life fulfilled me beyond expectations. I have also had the privilege of teaching medical students from Harvard Medical School and mentoring physicians-in-training from Massachusetts General Hospital and Boston Children's Hospital.

I wish to express my deepest gratitude to over two generations of families who entrusted me with their children's care. It has been an immense privilege to be part of their lives. I am grateful for the support and guidance I received from my partners at Milton Pediatrics. Working with such talented and caring individuals contributed immensely to my professional growth. Early on, I was fortunate to have the invaluable mentorship of Drs. Jack Robinson and Robert Ganz. I would also like to express my gratitude to the entire support team at Milton Pediatrics. Your dedication to excellence has made my career extremely rewarding. It has been an honor to work with each of you.

Although I don't have elaborate retirement plans, I plan to mentor in a course at Harvard Medical School next year to teach first-year students the elements of patient interview and physical exam. Also, my wife and I plan to do a fair amount of travel next Spring and I may expand my already large garden on Martha's Vineyard.

In honor of my career and the patients in my care, the Cohan/Kreger family began the **Lawrence Cohan, MD nutrition education fund at Community Servings (servings.org)**. Community Servings is an outstanding, efficiently run charity that provides medically-tailored meals to the ill and their families. Community Servings' nutrition education mission speaks to me as one of the great needs of our community. We encourage you to check out this excellent organization. Donations to the Dr. Cohan fund are greatly appreciated.

I look forward to keeping in touch with all of you. Thank you once again for the incredible memories and the opportunity to serve the community in such a meaningful way.

Sincerely,

Lawrence D. Cohan, MD
